

## Today We Celebrate Logan!

“Because I came to Two Hearts, God never failed to send me and baby Logan the resources we needed. It is true that the real requirement of the baby in his life is his mom and the rest will be provided. We truly appreciate the Two Hearts Team for the amazing support and friendship. For this, Logan and I have been able to conquer and prevail. More blessings to come for the Two Hearts Family!”

Dear Faithful Friends,

This summer has been one of constant adjusting around this new way of life for Two Hearts and our families. We stay in a state of awe as we witness firsthand the resiliency seen in these women and families as they strive to overcome their existing and ever-growing challenges. The widespread impact of COVID-19 is not a respecter of persons! The stress caused by the loss of income, resources, isolation, and fear of the unknown seems to magnify parenting challenges within the home. This is one area where Two Hearts is doing their best to provide compassionate support.

Whether it is a panicked, expecting mom who calls in need of guidance or a father now at home struggling with his new parenting roles, we are humbled to be here for them. *Because* of our supporters, we hear the repeated thank yous as each family walks out the door. Every time I see this I hope for two things; that we were able to alleviate some stress so that they may be the parents they strive to be and that our supporters know that by donating their hard earned dollar, they are part of the solution to this hurting world.
